Ethical Leadership and Success

VENUE AND DATE TO BE ARRANGED WITH GV CONFERENCES.

Ethical leadership is not a barrier to success. Rather success is contingent upon ethical leadership. This conference shows why ethical leadership matters, and how to achieve it.

Research has shown a clear link between a school or college's success and ethical and value-driven leadership.

When facing continuous change and multitudes of conflicting pressures it is sometimes hard to know as a leader if you are doing the right thing or even what the right thing is. Uncertainty about this can transmit to those who you work with and have a negative impact on what you are trying to achieve

The conference aims to inform and inspire leaders, or managers, how to remain ethical in tough times through active and practical sessions.

Who is it for?

In education - those new, or aspiring to, senior roles; established, middle and junior leaders; those new to a leadership role or rising stars you wish to retain; course leaders or subject leaders; pastoral staff leaders; support staff leaders; those with potential to move into these roles.

In other sectors- leaders at all levels, whether 'professional/technical staff, support or administration staff or any other staff with some leadership responsibility.
